Equilibrium Shape of Si
[Phys. Rev. Lett. 70, 1643 (1993)]

D. J. Eaglesham, A. E. White, L. C. Feldman, N. Moriya, and D. C. Jacobson

The Erratum [Phys. Rev. Lett. 72, 1392 (1994)] to the above paper by Eaglesham *et al.* was printed incorrectly: The words "*A*-type" and "*B*-type" were interchanged in the first sentence. The correct Erratum reads as follows.

The Si step energy of 28 ± 10 meV/atom determined from the curvature of small voids near (100) should more properly be compared with half of the double *B*-type step energy (i.e., 0.5×50 meV/atom [1]), as opposed to the single *A*-type step energy (23 meV/atom) used in this paper. The authors would like to thank Dr. H. J. W. Zandvliet for pointing this out.
